---

sorry about that. Also, with the comments I left, item "p" should say page 15, not 13 - do you want those by email also?

I asked BLM to review their figures, and received the attached, with many small acreage changes.

I had previously asked NPS to do the same, and have up-to-date information from FWS and Forest Service, so this should be the final word. I'm sending it via email since it will be much easier for you to cut and paste the new figures into a chart than type them from a paper copy. If you want to send me the document I could also make the changes in the chart and send it back. If you do it, the figures in bold in the far right-hand column are the correct ones, and the strike-through shows which ones need to be replaced.

I am still reviewing the overall document, but am close to finished.
